ACHIEVING CUSTOMER SATISFACTION AND LOYALTY

Surprise, delight and retain customers by achieving and maintaining customer satisfaction and loyalty

OVERVIEW

PRIMARY OBJECTIVES & BENEFITS

The importance of understanding customer satisfaction and loyalty cannot be underestimated in a commercial environment where customers have more choice and less brand loyalty than ever before. The theme of this program is therefore to ensure a sharp focus on every aspect and to root out opportunities for marginal gains that will differentiate, surprise, delight and retain customers. Loyalty is a precious jewel and directly linked to profitability. Organizations say that they realize the cost of customer acquisition versus retention, but what strategies can be applied effectively to reap the considerable benefits?

This workshop will help participants to be able to:

1. Improve customer satisfaction, retention and loyalty.
2. Include a profitability dimension to any customer loyalty strategy.
3. Plan, manage and analyze impactful customer satisfaction surveys.
4. Define customer segments, profiles and models for maximum strategic impact.
5. Create impactful 'customer value propositions'.
6. Develop loyalty schemes: know what to avoid and how to improve them.
7. Apply the 'Moments of Truth' analysis model (MOT) to the customer satisfaction journey.
8. Design and present a customer satisfaction and loyalty scheme initiative for their organization.

WHO SHOULD ATTEND?

This course is recommended for : Loyalty scheme managers and supervisors, product managers, business unit managers, sales managers and supervisors, customer care managers and supervisors, analysts and any interested decision maker, department head or supervisor.
