BUILDING CORPORATE INNOVATION STRATEGY

Build a Solid Corporate Innovation Strategy

OVERVIEW

PRIMARY OBJECTIVES & BENEFITS

Practically every company innovates. But few do so in an orderly, reliable way. In far too many organizations, the big breakthroughs happen despite the company. Successful innovations typically follow invisible development paths and require acts of individual heroism or a heavy dose of serendipity. Successive efforts to jump-start innovation through, say, cash prizes for inventive concepts, and on-again, off-again task forces frequently prove fruitless. Great ideas remain captive in the heads of employees, innovation initiatives take way too long, and the ideas that are developed are not necessarily the best efforts or the best fit with strategic priorities.

This workshop will help participants to:

1. Learn how to develop an innovation strategy that will lead to the growth of their organization.
2. Learn how innovation is measured.
3. Anticipate the next 'tsunami' in their industry and make sure to ride that wave.
4. Define their risk appetite and know when and how to reward risk, failure and success.
5. Ask the right questions while building their innovation strategy.
6. Align their corporate innovation strategy with the corporate vision.
7. Learn how to protect their ideas - "Intellectual property rights".

WHO SHOULD ATTEND?

- Chief Innovation Officers
- Innovation Managers
- Head of Innovation
- Innovation Experts
- Head of Strategy
- Innovation Consultants
- Head of Marketing

BUILDING CORPORATE INNOVATION STRATEGY
